## **CLUB NEWS**

- **President Bruno:**

**Hello Rotarians, Families & Friends!**

Was approached via LinkedIn by Namara Jane during the week....

**The Hand Of Hope Foundation In Africa -Namara Jane Director.**

-This was featured in March 2022 where **Rotary and USAID** were coming together to erase the taboo on menstruation. But this is still a big challenge in many rural areas for instance in Busoga region in the Eastern part of the country girls still miss 2-3 days every month during their menstruation times and this has affected their education, their work and self-esteem in public.

-Further more for those who try to find means they use banana leaves ,old clothes and polythens which are unhealthy and unhygienic.

-For this, Hands of Hope have continued to train girls on good menstrual hygiene practices and now we are on a level of starting to make the reusable sanitary pads so that we can distribute them to school's and also sell them to help others so that the funds would support other projects like the back to school project where we distribute scholastic materials like pens ,books ,sets etc

-Are you an individual ,company ,group or a club and you desire to end taboos and other menstrual related myths ?

-Look no further than supporting us with a sewing machine. Cost of these machines is \$163. Our target is to get 50 sewing machines.

- **A.G. PP Pat: Community Service Report**
  - Solarbuddy is on its way to Coburg North Primary School I look forward to lots of feedback

**P.E. Heather Environment Chair:**  
**P.V. ROTARY ENVIRONMENTAL GROUP**  
**TREE PLANTING SESSION**

**When? - Sunday JULY 31ST 2022**

MEET AT CNR CORNWALL RD AND KENT RD, PASCOE VALE

1. Trees reduce CO2. According to [coloradotree.org](http://coloradotree.org), an adult tree can change 48 pounds of carbon every year into enough oxygen to keep two people alive.
2. Trees reduce ozone levels and can mean milder temperatures and more breathable air.
3. Trees reduce erosion. A tree canopy can reduce the force of rain hitting the ground to a gentle sprinkle, preventing erosion.
4. Trees can absorb summer heat and provide a windbreak.
5. Trees trap dust and debris which creates generally cleaner air.
6. Trees provide an ecosystem for animals, birds, insects and other life, which means every tree is a potential life-saver to certain species.

- **Fundrasing Chair: Matthew:**

On Saturday we had our first Bunnings BBQ for this Rotary year and what a good one it was.

- **New Generations Chair: Bruce:**

Many of you have witnessed first-hand the excitement and joy that Rotary Youth Leadership Awards (RYLA) has distilled on past RYLArrians.

They always struggle to articulate what it was from the week long, self-discovery journey that managed to change their life and have such a profound impact on their lives in such a short time!

**Would you like to discover some of the RYLA secrets and get a taste of the conference that has changed so many young lives for the better?**

We are offering all Rotarians and partners the opportunity to be part of a mini RYLA and take away the same excitement and joy, in the hope that your experience, will assist you in finding RYLA candidates, and in developing key skills that will assist in the journey of life.

When: Sunday, 14 August 2022

Time: 10am to 3pm

Where: Holy Trinity Catholic Primary School, 94 Weidlich Road,  
Eltham North, Victoria 3095

Investment in you: \$15 lunch and all materials provided.
