President's Post

Hi All

The rotating Presidency seems to be working well, with Heather passing the reigns to me for a very short period. Heather is currently on holiday in Jaipur, India, having an interesting and warm time (as per the photo below) – forecast for today is 30C and humid.

Bruno has returned from Vietnam after a restful holiday. He said he was pleased to be out of the country when his beloved Blues put up an extremely poor performance against the lions.

Last night I attended a cluster 2 Presidents meeting, or whatever they are called now. DG Stephen has requested that clubs join together to work on a worthwhile group project, that will give Rotary some local exposure. At this stage, the presidents are favouring group support for Moreland's "Lift the Lid" walk. Details on how we can support this cause to follow, but getting as many members to register and attend on the day would be a great start.

After 2 years of being the "Pascoe Post" editor, this will be my last. I confidently hand over control to Jerry Paglinawan. I have enjoyed being editor, but it's time for a new face. Jerry can be contacted at hybridsteel.jerry@gmail.com. Please send all newsletter information to Jerry from now on.

Last Week

Last week we heard about the government financial regulator – Austrac.

AUSTRAC performs a dual role as Australia’s anti-money laundering and counter-terrorism financing (AML/CTF) regulator and financial intelligence unit. This dual role helps to build resilience in the financial system and enables AUSTRAC to use financial intelligence and regulation to disrupt money laundering, terrorism financing, and other serious crime.

As Australia’s AML/CTF regulator, Austrac regulates more than 17,000 businesses that provide financial, gambling, bullion, remittance and digital currency exchange services. Austrac ensures that regulated businesses comply with their obligations to have systems and controls in place to manage their risks and protect them and the community from criminal abuse.

3. My husband says I only have 2 faults. I don't listen and something else....

4. At my funeral, take the bouquet off my coffin and throw it into the crowd to see who is next.

5. I thought growing old would take longer.

6. I came, I saw, I forgot what I was doing, retraced my steps, got lost on the way back, now I have no idea what's going on.

7. The officer said, "You drinking?" I said, "You buying?" We just laughed and laughed....and now I need bail money.

8. Day 12 without chocolate...lost hearing in my left eye.

9. Scientists say the universe is made up of protons, neutrons and electrons. They forgot to mention morons.

Well, that's it from me. Time for a new editor. It's a thankless task. Who knows how many of you are still reading when you get to this point? Thanks to those who have sent replies and comments, your responses are appreciated. Humour me, reply with a score out of 5 for my two years' work. I'll take a zero because a least it means you've read this!

Good Luck Jerry.
